

Diabetes Supplies for Ambetter Members

Managing your diabetes does not have to be complicated. As a member of Ambetter from [health plan], we offer valuable resources and support to make it easy to stay in charge of your health. We offer:

Prescription Drug Coverage:

Ambetter has a network of pharmacies where you can fill your prescriptions. When you have medications that you take daily or for longer periods of time (for example: 90 days or longer), you may have options for filling your prescriptions:

1. At a participating Ambetter pharmacy. Be sure to ask your pharmacy if they can fill extended day supply medications.
2. Through RxDirect – a service that delivers your medications right to your home. Ask your doctor for an extended day supply prescription and complete one of the following:
 - Call RxDirect at 1-800-785-4197 and enroll over the phone. You will need to either mail in the prescription your doctor gave you, or have them submit your prescription to RxDirect once you are signed up.
 - Sign up for RxDirect online:
 1. Go to www.usscript.com/rxdirect and click on “New Member Application.” Fill out the form and submit to RxDirect. (You will receive an email when your form is received that lets you know the next steps in the sign up process.)
 2. Download the mail service enrollment form on Ambetter from [health plan]’s website on the “Pharmacy Resources” page in the “For Members” section of the site.
 3. Print out the form, fill it out, and then mail it to the address shown on the form along with your original prescription and your payment information.

Diabetes Supplies:

Your Ambetter plan also covers the items below:

- Test strips.
- Needles.
- Syringes.
- Lancets.
- Blood glucose meters.
- Other supplies you may need.
